

PRESS RELEASE

Bring Global and WSO2 Enter Integration Partner Agreement

Through the partnership, Bring Global will provide high-value services and capabilities to customers through WSO2 best-in-class open source API management, integration and identity solutions

Lisbon, Portugal, 22nd of February 2021 - Bring Global and [WSO2](#) today announced that they have entered into an agreement in which Bring Global is a WSO2 Integration Partner. Under the agreement, Bring Global will provide integration solutions based on WSO2's technology for its customers across the European Union, United Kingdom, Middle East, Africa, Asia Pacific, and Latin America.

The strategic vision of Bring Global is to continue impacting millions of people's lives by solving enterprise customers' business challenges through technology delivery in a digital, connected and cashless world. This includes enabling access to financial services for day-to-day lifestyle demands.

Through the partnership, Bring Global will add high-value services and capabilities to help enterprises at every stage of their digital transformation journey and extend its open integration services portfolio to give customers access to WSO2's best-in-class solutions for API management, enterprise integration, and identity and access management (IAM).

"This partnership with WSO2 extends our leadership in the area of open source integration. The combination of WSO2 platform and our global technology and industry expertise will strengthen our capabilities in the technology integration space and will enable our customers' digital experiences," said **Steve Luvia, Bring Partner, Sub-Saharan Africa**. *"We are also extending our global footprint and accelerating our vision of delivering value to our current and future customers".*

"We are thrilled to have Bring Global join our growing global partner network as a WSO2 Integration Partner," said **Jonathan Marsh, WSO2 vice president of strategy**. *"With extensive expertise in technology consulting and integration and a deep understanding of regional market dynamics, Bring Global will play an important role in empowering enterprises to achieve success in their digital transformation using our platform."*

About WSO2

Founded in 2005, WSO2 enables the composable enterprise. Our open-source and decentralized approach helps developers and architects to be more productive and rapidly build digital products to meet demand. The company's open-source products for developing, reusing, and managing APIs and integration flows are built on proven technology. They prevent vendor lock-in and can run on-premises or in the cloud. With offices in Australia, Brazil, Sri Lanka, Germany, the UK, and the US, WSO2 employs over 700 engineers, consultants, and professionals worldwide. Today, 100's of leading brands and 1,000's of global projects execute over 6.2 trillion transactions annually using WSO2's integration technologies.
